Armageddon is much better!

This is more limited in lots of ways and you have to play through a lot of inane missions to open new weapons.

I bought it to play with my friends not to grind stupid puzzles. the missions are so difficult it is one of rage games. worms with only 1HP kill you so stupid!. This is definitely better than Revolution. I would say it's soul ancestor of Armageddon.

A bit strange system of hats and customization, but overall it's good.

Would recommend it for all Worms fans.
